# Cree® CR-T Series

LED Retrofit Downlight

# **Higher Lumen Performance**

The CR-T Series provides more lumens, perfect for high ceiling residential and commercial applications. The CR-T Series also offers higher efficacy and longer life than compact fluorescent lamps, with the beautiful light quality that you would expect from an incandescent.

# High Color Quality Without the High Price Tag

The CR-T Series features 90+ high CRI light, instant on, smooth dimming down to 5% and a deep recess that reduces uncomfortable glare and improves clarity, all with a fast payback. The beautiful high CRI light delivers exceptional color quality, making colors appear more vibrant, rich and natural. These ENERGY STAR® qualified luminaires have a higher standard of performance, opening up commercial and residential opportunities for more incentives and rebates available from utilities.

# **Multiple Installation Options**

Designed for retrofit applications as well as new construction, the new CR-T Series Downlights are perfect for 4, 5, and 6 inch recessed cans with E26 or GU24 sockets. These downlights are perfect for both indoor and outdoor applications and are rated for dry, damp, and wet locations.

## **CREE® CR-T SERIES LED DOWNLIGHT**

The CR-T Series LED downlights provide efficacy that is up to twice that of compact fluorescents, while achieving better color quality with a CRI of 90+. Designed to easily install into existing IC or non-IC four-inch, six-inch and many five-inch housings, dimmable down to 5% with widely available traditional dimmers and ENERGY STAR® qualified, this product is ideal for use in both residential and lightcommercial new construction and retrofit applications.

## **Applications**

#### **Residential and Commercial Lighting**

If you're looking to save on the cost of installing cans throughout new construction or a renovation, consider Cree's family of downlights. Our CR-T Series downlights are easily installed in most 4" or 6" recessed can light fixtures with either E26 or GU24 socket types, providing flexibility while saving you time

Cree's CR-T Series downlights are ideal for extended care facilities, such as nursing homes and rehabilitation centers. Our 90+ CRI light makes colors true and natural, minimizing both patient and staff fatigue while improving visibility for diagnosing and treating patients.
