

DuraLED Triangular Bollard

Contemporary Series, B12

LEDicated

Soft**LED**

**15" Pathway
Bollard available.**

The contemporary Triangular Bollard provides pedestrian and parking area lighting with a slender, clean, and unobtrusive appearance. The specially designed reflector cone optics offer controlled uniform lighting. The B12 is ideal for a wide range of applications including Multi-family housing, office parks, walkways and landscape accents.

- Energy savings of 80% or more versus comparable Metal Halide luminaires
- Precision reflector cone optics for controlled, uniform lighting
- Type V optical distribution
- B12 offers a durable extruded aluminum housing with weather resistant powdercoat finish
- Vandal-resistant, UV-stabilized polycarbonate lens protects internal components
- Optional Opal LumaLens available for soft uplight to light walls and adjacent landscape elements
- 12 watt DuraLED arrays with up to 1,320 lumens, to easily replace legacy 50 watt HID systems
- Available in 3000K, 4000K and 5000K CCT

Catalog Number: B12QF1X12U*KC♦ (*3K, 4K, 5K; ♦B=Black, Z=Bronze)
