

# Emergency Stop Switch Actuator

## SEAL01

Part Number

- 360° visible switch position indicator
- Bright LED illumination in blocking protection flanges
- Unlocking by turning left or right

### Technical Data

#### Electrical Data

Temperature Range -30...55 °C

Storage temperature -50...85 °C

#### Mechanical Data

Housing Material Plastic

Service Life (Activations) 50000

Degree of Protection IP65

Installation Type Mounting

Installation opening 22,3 mm

Unlocking turning

#### Function

Switching position indicator yes

Anti-Lock Collar yes

Illumination yes

Applicable contact block SC20J01S

SC21J01S

Contact block must be ordered separately (not included in delivery)
