

# LED Indicator Set

for safety field height of 1211 mm

## Z99G008

Part Number

### Technical Data

| Optical Data         |                                    |
|----------------------|------------------------------------|
| Light Source         | RGBW                               |
| Electrical Data      |                                    |
| Supply Voltage       | 20,4...28,8 V DC                   |
| Temperature Range    | 0...55 °C                          |
| Power                | 24 W                               |
| Mechanical Data      |                                    |
| Brightness setting   | 4 levels                           |
| Degree of Protection | IP20                               |
| LED indicator        | For safety field height of 1211 mm |

- Avoidance of inadvertent ESPE resolution settings
- Quick identification of ESPE operating states
- Visualization of operating states in different colors

The LED indicators indicate the operating states of SEFG safety light curtains and SEFB multi-light arrays in color. Depending on the utilized signal output, users can choose between four colors (RGBW) and select the desired light intensity. The setting is entered via the connection unit.
